

# MOUNT SCOTLAND

My husband, Jamie Macdonald, is proud of his Scottish heritage so we decided to dedicate this mound to him. It includes 3 Scot's Pine trees and 2 driftwood stags. The stags were bought in Bridport market and made from driftwood which originated in Indonesia - sadly, as a result of the horrendous deforestation. However the wood was drifting for some time before being made into sculptures, which makes them very resilient to the weather. The antlers were provided by Jamie
